✔ Objective

To work in an environment which encourages me to succeed and grow professionally
where I can utilize my skills and knowledge appropriately and to serve the organization
effectively with my confidence and technical skills.

✔ Education

- **K Ramakrishnan College Of Engineering.**   2019-2023
  B.E in Computer science and engineering.
  CGPA : 7.87

- **Vidya Mandir matric higher secondary school.**   2019
  HSC in Computer science
  74.6%

- **Vidya Mandir matric higher secondary school**   2017
  SSLC
  86.4%

✔ Interests

- OOPS
- DBMS

✔ Projects

- **Academic project**
    Team project(4 members)
      Sewage inundation machine learning and cloud communication prediction using
  KNN. This project is to predict the sewarage overflow within the given set of data.
  Four types of sensors have been connect through the arduino microcontroller and it
  has been given data's if the limit of the data's exceed an alert message will be sent to
  the authority of the sewarage systems. The main aim is to improve the safety and
  health of the sewage workers.
  Technologies used: IOT, Machine learning algorithm (KNN)

✔ Certification

- Completed Front end devlopment course in besant technologies.
- Completed sql course in besant technologies

- Completed responsive web design certification in freeCodeCamp
- Completed Javascript algorithms and Data structures certification in freeCodeCamp

✔ Skills

- JAVA
- HTML
- CSS
- Sql
- Javascript
- React JS

✔ Languages

- English(read , write & speak)
- Tamil (read, write & speak)

✔ Key Skills

- Logical thinker.
- Easily Adaptable person.
- Team work.
